

Philip J Gould was born in Ipswich in 1974, and still lives in Suffolk with his wife Beth. At an early age he discovered a vivid imagination and affection for the written word. Leaving school at 16, he went on to work in shipping and insurance, and is also a qualified personal fitness trainer. In 2002, Philip assisted with the creation of www.recordholdersrepublic.co.uk, a website dedicated to the world of unusual human achievement records.

Ralf Laue became interested in unusual world records over 20 years ago. Since then he has amassed a huge collection of books, articles and other documents relating to bizarre records from every corner of the globe. A multi-record holder himself, Ralf founded an international club for record holders (www.recordholders.org) in 1988. He lives in Germany with his wife, Silke, who tolerates his unusual interests.

THOUSANDS OF AMAZING RECORDS
 JUST WAITING TO BE BEATEN
 RALF LAUE AND PHILIP J GOULD

THE BOOK OF ALTERNATIVE RECORDS

The highest mountain in the world will always be Mount Everest, but who knows how many ferrets a man can get down his trousers...

Welcome to the most eccentric, weird and downright zany record book you are ever likely to find. This incredible tome is the result of many painstaking years of research that has culminated in a crazy compendium of incredible and unusual feats. Ranging from amazing acts of dexterity, strength and agility, to those set down the pub, to others that are just plain ridiculous, the records in this book are inspirational because all of them are achievable – there's nothing stopping you from having a go at any one of them yourself!

With thousands of records, from pulling aeroplanes and barges to lying on a bed of nails, to typing backwards or being the fastest-running waiter in the world, there really is a challenge for everyone. But be warned: do not assume that the eccentric nature of these achievements makes them easy to beat. Ear wiggling, beer mat flipping, and pea pushing may seem like a doddle in your front room, but when you're up against the clock and following in the footsteps of the world's most accomplished record breakers, you've got an alternative task-and-a-half on your hands if you want to be a winner.

If there were a record for the weirdest, funniest and most insane record book in the world, *The Book of Alternative Records* would put the others to shame!
